DESCRIPTION

Your routine service for your off-mains drainage system is due in July 2026. As there are smells coming from the unit, we would advise that the tanker and jetter attend at the same time. Please see below proposal. This service includes one wastewater engineer attending onsite for up to one hour, along with all travel and mileage costs. If any additional parts or labour are required, these will be discussed and agreed with you onsite before any extra costs are incurred. If you have any questions or need further information, please don't hesitate to contact us on 01773 767612 or via email at enquiries@hec.co.uk. Thank you for your continued custom.
